

Phlow Corp

Pharmaceutical Manufacturer

Location: Richmond, VA
 Market Sector: Corporate
 Size: 25,000
 Year Completed: 2020

Phlow is a public benefit pharmaceutical manufacturer with a mission to create supply chain solutions in the pharmaceutical industry and provide affordable and high quality medicine to those who need it. Phlow's dynamic open office environment supports a variety of work and collaboration settings.

Key design features include ergonomically designed workstations, sit to stand furniture, perimeter glass walls with abundant natural light for all with access to exterior patios and downtown canal walk.

DRIVERS

As innovators in their industry, Phlow needed a unique office space to foster creativity, collaboration, and innovation. Phlow sought a space that spoke to their company culture and values: professional, polished, clean, innovative, and forward-thinking.

APPROACH

Designed to accommodate rapid employee growth, the space utilizes flexible workstations and technology to accommodate frequent team reconfigurations. Mezzanines host additional work and collaboration opportunities with a bird's eye view of the office below. References to nature are mimicked through the interior finishes utilizing warm wood, stones, and recycled materials. The gateway walls also create a backdrop for branding and client testimonies. Added graphics and AV integration alert the guest and employees alike to the innovation and forward-thinking that drives Phlow's culture.
